

We Are One

Connor Ross

Music Monday, May 4th

We learn to share and care and not think twice about it
2 and 2 make 4, we never doubted.
But it's what we learn through every note
And what the nation needs to know
The tune inside your head is where to go

If you take the chance and try to dance
You might just feel the rhythm
Read the notes and words we wrote
You might be singing with them
And honestly I'm promising that music is the cure
You may come to learn WE ARE ONE

Can you hear them singin' - we are one
Can you hear them call we are one
Can you hear them humming the tune
Can you hear them sing it with you
Oh
Sing it with you
Oh

When that song come on the radio and takes you to that place
Well don't you want the world to know
Just how to feel that way
How to teach them music they can make, give them hope
And a note to play, the tune inside your head is where to go
Oh if you take the chance and try to dance you might just feel the rhythm
You Read the notes and words we wrote you might be singing with them and
Honestly I'm promising that music is the cure, you may come to learn WE ARE ONE

Can you hear them singin' we are one
Can you hear them call we are one
Can you hear them humming the tune?
Can you hear them sing it with you
Oh
Sing it with you
Oh
